

### Leg Pad Cover Instructions 2-Piece Leg Pads

1. Undo the leg strap entirely.

2. Place the cover next to the leg pad to ensure you are putting it on the correct side.

3. Slide the cover over the leg pad. You'll have to squeeze the pad together in order to fit it through the mouth of the cover.

4. The cover has a very simple method for securing it to the leg pad. Each cover comes with a strap that has a stiffener on each end. Route the stiffener behind the two layers of the tape.

5. Rotate the stiffener back onto itself and between the two tapes

6. Feed the leg strap back through the friction adaptor to close the legstrap.
