

Drogue Disk Cover Installation Instructions  
P/N MIS-H-Disk Cover

Tools Needed:  
Heat gun or hairdryer  
LB Tool or Plastic Bicycle Wheel Lever

Align Disk cover with drogue disk.  
Horizontal edge of disk should be perpendicular to arrow.

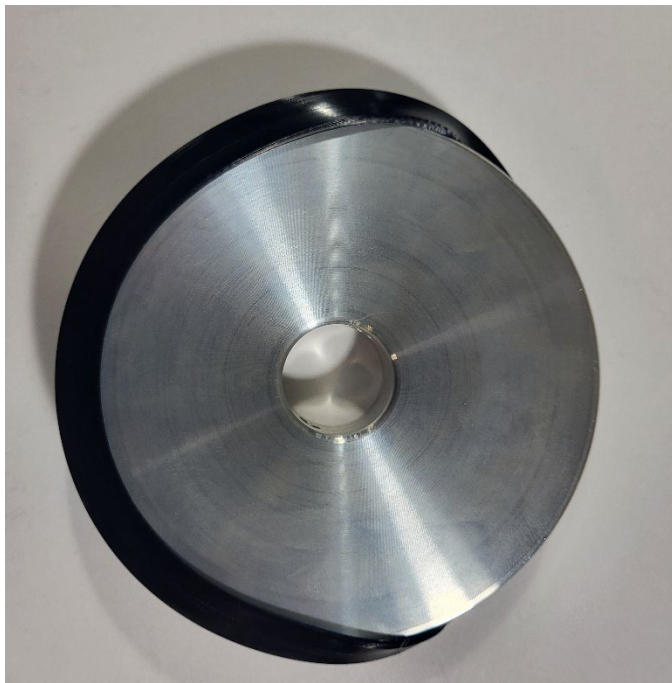

Heat disk with the low setting of a heat gun or hair dryer to soften plastic.

Using an LB Tool or a plastic bicycle wheel lever to start working the disk protector edge over the drogue disk.

Make sure to maintain the alignment of the disk cover to the arrow on the drogue disk.

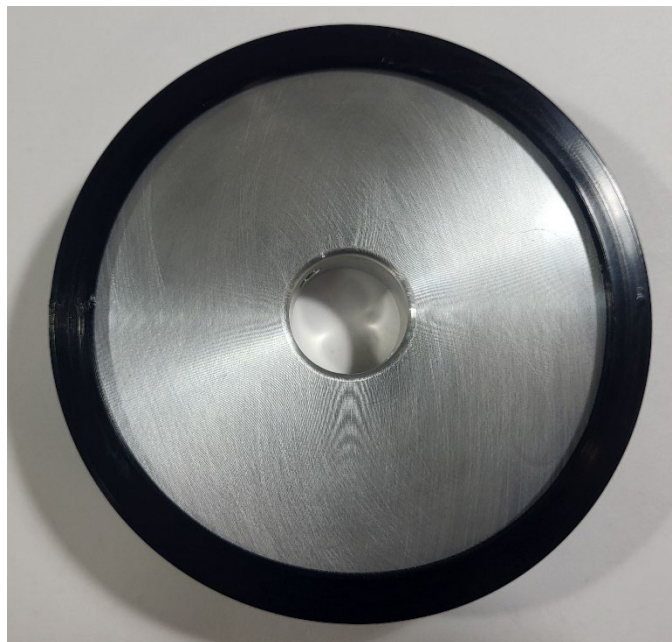

Use LB Tool to work warmed area of disc cover over the edge of the disk.

Continue gently heating the edge of the disk cover as you work it around the drogue disk with the LB Tool.

Verify the position of arrow relative to the horizontal edge of disk cover.

Review view of installed disk cover.
